1. We are now ready with a semi-final draft of the UN paper to send to Scali and to ask him for an appointment to discuss it with [ ] of OPR, the drafter. A copy for you is attached. The paper has been widely discussed on the DDI side, but by its nature does not, and should not, represent total agreement on everyone's part. Before being published, we plan to discuss it not only with Scali but some UN people in State -- again without seeking concurrence on every point.

2. This note is to request you to break the ice with Scali by phone, after which I will follow up by getting a copy into his hands and arranging an appointment for [ ]
